Mission Statement

6

The Half Moon Sober Festival, Inc. is a non-profit tax-exempt corporation based throughout New England.

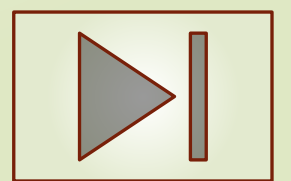

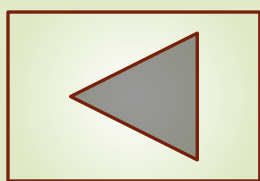

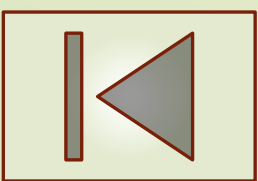

Our primary purpose is to provide an affordable alcohol and drug free environment in which individuals and families can come together to learn and grow.

We accomplish this through a series of sober dances, comedy shows, and other social events leading up to an annual four-day multi-cultural camping experience.

Through the barrage of media advertisements, both blatant and subliminal, society has come to associate recreation, professional sports, enjoyable living, etc. with the presence and consumption of alcoholic beverages and/or drugs.

Examples include billboard ads, magazine ads, and radio and television commercials. We are trying to change societal attitudes like these through major events like the Half Moon Sober Festival.

Other organizations deal with the prevention of alcohol and drug abuse, and with the results such abuses bring; whereas we are promoting change at the core level. We are presenting an alternative to society's attitude and tolerance toward the necessary inclusion of these substances in order to have a full and enjoyable life by doing the opposite. We are putting on a festival that includes a sampling of societal events in a fun, educational, recreational atmosphere, without the presence or necessity of alcohol or drugs.

Volunteers

8

We would like to thank the volunteers that helped put this years festival together and for helping to keep it running this Memorial Day Weekend.

Without their help, there would be no festival.

The tireless commitment by the board and our volunteers is as much rewarding as it is challenging.

We plan to do some fundraising events throughout the year and would love to have some new sober faces help us out at those events.

Please consider helping us out and possibly taking a position or volunteering at next years festival.

We would love to have you!

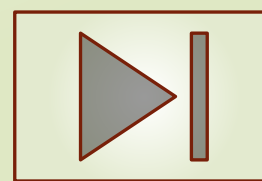

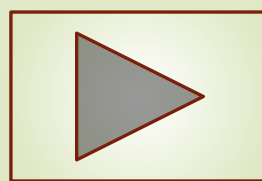

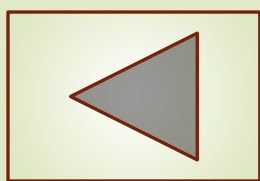

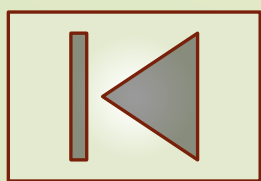

There is a link to our feedback form near the top of this guide, please take a moment to fill that out.

Include your email and check yes if you would be interested in volunteering.

You can also stop by our Information Booth at the Main Field to learn more and sign up there.

Thank you for coming!

River Sang Wild

18

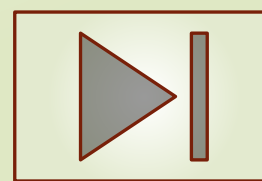

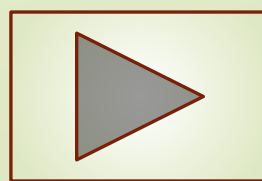

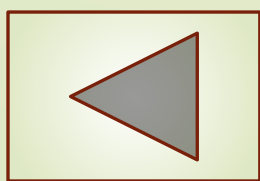

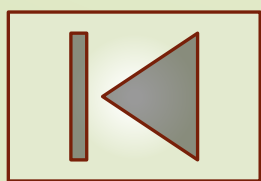

Indie alternative rock band, River Sang Wild, delivers catchy melodies with 90s persona to the bedroom of rock n roll. This Boston/New Hampshire trio began amongst the uncertain times of 2020.

With the lack of live shows, the band took advantage of their time in a cozy basement setting to hone their own unique style of songwriting.

Danny McCarthy (Singer/Guitar), Harrison Foti (Drums), and Rainor Vigneault (Bass) sum up to be a smorgasbord of their influences — from tunesmiths like The Rolling Stones, The Black Keys, Dave Matthews Band, and The Strokes, to name a few. “Heartbreak Recital” (2023) marks the band’s first EP, consisting of 5 heavy-hitting tracks, from pure garage noise to sweater rock.

Selfish Steam

23

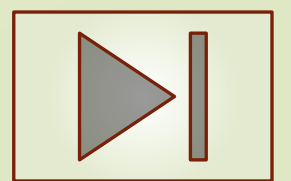

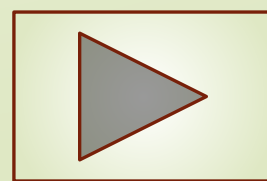

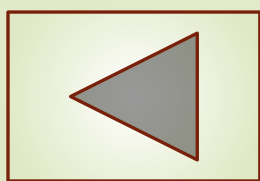

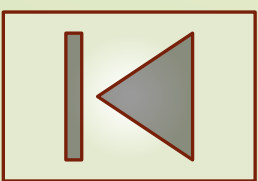

Friends in Recovery with Music that Touches the Soul.

Born from a shared journey of healing and growth, Selfish Steam is more than just a band—it's a testament to the power of music in recovery. As friends who have walked through life's darkest moments together, they channel raw emotion into songs that resonate with the soul, blending elements of alternative rock, post-punk, and heartfelt storytelling.

Their music is a reflection of struggle, resilience, and hope, with lyrics that speak to those searching for meaning, connection, and redemption. Every performance is an invitation—to feel, to heal, and to find strength in the rhythm of the moment.

For Selfish Steam, music isn't just an art form; it's a lifeline. And through every note, they remind us that we're never alone in the journey.

He now creates a Folk Pop, Rhythm & Rock vibe with hints of Roots Rock, Blues, Reggae Fusion, and Soul. He has traveled cross country and thousands of miles to perform.

With Music as an outlet and family and community as inspiration, he works to unite people and create positive experiences for everyone he can.

Desolation Angels

25

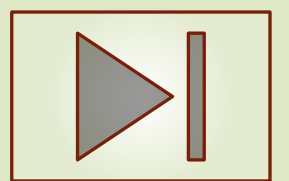

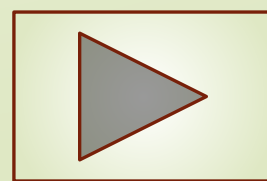

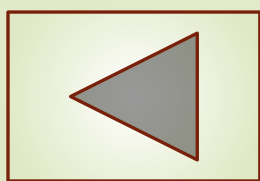

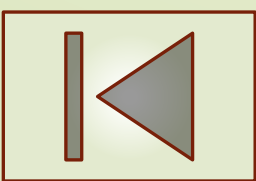

The musicians in Desolation Angels are seasoned veterans of the local music scene North of Boston.

They came together in winter of 2021 to try to present the music of Bad Company and Paul Rodgers as authentically as possible. The band is comprised of Rick Reda on vocals, Duffy Bouchard on drums, Eric Hanson on keyboards, Adam Elliott on bass, and Brian Fernald and Kevin Meaney on guitars.

Starting out, the idea of playing Bad Company music was appealing enough to the guys. But lead singer Rick Reda embodies the soul and tone of Paul Rodgers like few can, and that opened up a much wider fountain of great material to pick from. With Free, The Firm and even Queen added to the repertoire, there is no shortage of great tunes to perform.

~ 12 Steps to a New Life ~

This workshop will benefit people in early recovery and those with long term sobriety too.

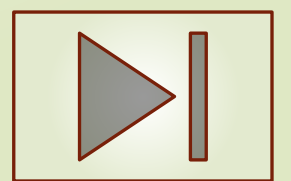

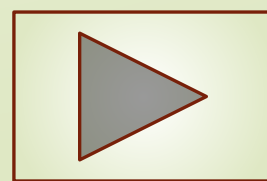

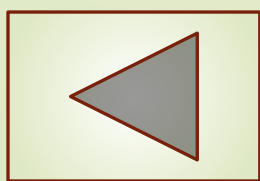

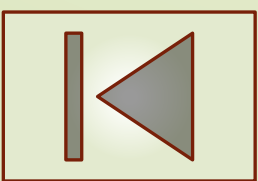

In this workshop we will go over the basics of early recovery and how to stay substance free and sober long enough to begin the work laid out in the 12 Steps.

We'll review the process of how to change the way you think and act which has caused you "all the trouble there is" and brought you to seek recovery.

We will finish up with suggestions on how to continue practicing these 12 Principles in all our affairs so we can maintain the wonderful life we have attained by working this program of recovery.

The focus of this workshop is to emphasize the importance and purpose of each step, and why it's important to continue working them to maintain Spiritual growth in your life.

~ Ghosts In The Bedroom ~

Ghosts in the Bedroom (for survivors of incest/abuse and their partners) This workshop is designed to aid the recovery of Survivors and partners (for the safety of all, no perpetrators Please). The intention of the workshop is to identify issues from our past that covertly affect our lives and relationships today so that we may take steps to minimize their effect on us today. The definition of incest is determined by the recipient, it may include any abuse, physical, mental, verbal, or emotional, by any person in authority or guardianship over another.

My partner and I are Survivors and have come a long way through the process in SIA and other forms of recovery. Although we are not all better yet we believe we have hope and healing to offer others. This could become very intense. We ask that if you do not intend to bring your partner that you at least bring a friend who will be there for you and support you through the possible reactions. We will try to have other support people available as well. We will be available for follow-up at our campsite for the remainder of the weekend and by phone after. Please feel free to seek us out.

~ Learn Rhythm From Different Countries ~

Mike will be teaching an African rhythm called Kake Lambe, and a middle eastern rhythm with orchestration. After some simple instructions you will immediately become a part of something bigger than yourself. Once we have had some fun enjoying our group we will enjoy an open rhythm from a volunteer to start. No mistakes are considered and all will be fine if we keep to the group pulse and not stray. All you need is to feel the communal pulse.

You don't have to know anything about drumming to participate. Just come with an open mind and a desire to get your wiggles out, have fun, and the desire to foster dance. If you don't want to drum then try some dancing with the beats we create. Let the spirit take you.

Bring a chair, bring a drum and bring a friend. Drums will be offered to people who need them (I have a few) and beginners are most welcome. Leave the cowbells and louder time keepers at home but any hand drums are welcome and I will have buckets and sticks for some.

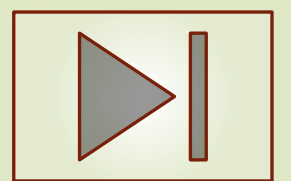

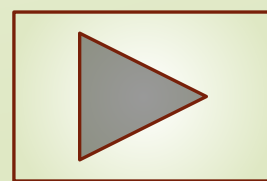

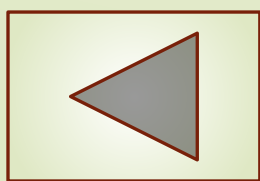

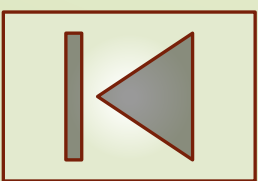

Mike teaches all things percussion and is accepting new students for the summer months.

Private instruction is available in Massachusetts and will travel (within reason). He also teaches at a mom and pop music store and guitar center.

Mike has a spiritual bucket drumming event at Alyssa's place most Saturdays in Gardner, MA at 2:15.

Beauty Building with Mel

Hello 🖐️

My name is Mel Chaput and I am your Beauty Builder.

What is a beauty builder?

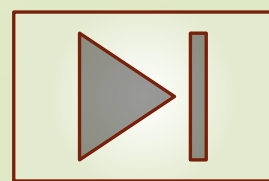

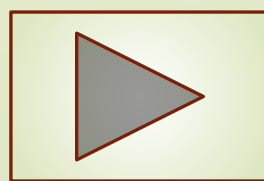

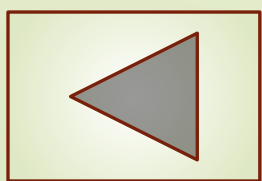

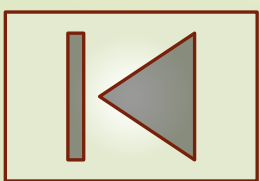

So you see, I work with women who have experienced trauma in life and are ready to heal from the past.

I build beauty from the inside so we can sparkle on the outside. I'm not sure about you, for myself I feel more beautiful when I'm shining. And pretty nails, shimmery eyes and a touch of sparkle on my wrist add to that feeling.

Part of my offerings include Color Street and Touchstone Crystal by Swarovski. Please visit me on the main field all weekend. We can chat about what's holding you back or how I was able to overcome such obstacles.
